BIG DEMAND FOR WORLD'S GAME SEATS

NEW YORK, Oct. 6.—Within twenty-four hours after the announcement yesterday of the schedule of games for the 1911 world's championship, applications for seats came in such numbers that the offices of the New York Baseball club were flooded with check-letters. The demand was so overwhelming that extra clerks were engaged to attend the mountain of mail. The application were too numerous to count tonight, but they ran into the thousands.

In addition hundreds of local fans believing they could thus get in on the ground floor, went to the offices today only to find that no tickets would be issued until the advance sale begins Thursday.

By strict enforcement of the rule of only four tickets to one purchaser and the rejection of suspicious applications, it is hoped to reduce speculation to a minimum.

At the Polo grounds here, where the first game will be called a week from tomorrow, preparations are nearly complete to take care of 60,000 persons. If this number can be squeezed into the stadium, now being completed by the erection of a new grand bleacher section, the crowd will be the largest ever seen at a ball game.

The world's series record attendance at any one game has been less than 35,000. In 1910 the total admissions for the five-game series between Chicago and Philadelphia was 124,222, an average of less than 25,000 to a game.

NATIONAL LEAGUE.

Split Even.

BROOKLYN, Oct. 6.—Brooklyn and Boston divided a double header today. The first was a pitcher's duel between Donnelly and Klagan. The visitors bunched three hits in the fourth inning and made their run. Brooklyn took the second game. It was a close thing up to the seventh, when Young was found for eight hits and as many runs.

First game: R. H. E.
Boston..... 1 3 2
Brooklyn..... 0 6 0
Batteries—Donnelly and Klagan; Riddan; Hagan, W. Miller and Higgins.

New York Takes Doubleheader.
NEW YORK, Oct. 6.—Although the New Yorks have already won the 1911 pennant, they continue their winning streak by taking two from Philadelphia. In the first game Schults allowed only one scratch hit in the six innings, then he went to pieces in the seventh and eighth innings New York got nine runs off him.

Chalmers' wildness in the first inning of the second game proved his undoing, as New York scored four runs at the start. Paskert made a marvelous one-hand catch of Devore's line drive in the first game.

First game: R. H. E.
Philadelphia..... 5 9 3
New York..... 10 8 5
Batteries—Schults and Killifer; Ames and Wilson.

DOUBLY PROVEN.

Ogden Readers Can No Longer Doubt the Evidence.

This Ogden citizen testified long ago. Told of quick relief—of lasting benefit.

The facts are not confirmed. Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit. Thomas W. Wooten, 732 Barlow Lane, Ogden, Utah, says: "For years I was in misery from pains across the small of my back and every little while I was obliged to lay off from work. Often when straightening after stooping, the pain was so acute that I was forced to cry aloud. The kidney secretions passed too frequently and when being voided were accompanied by a scalding sensation. I tried nearly every kidney remedy on the market, but was not helped until I used Doan's Kidney Pills, produced from Doan's Pharmacy. The contents of two boxes benefited me in every way and after I had used four boxes, I was completely cured. My cure is all the more remarkable, considering the fact that I have reached my eightieth year." (Statement given September 21, 1907.)

A Permanent Cure.
Mr. Wooten was interviewed on July 25, 1909, and he added to the above "I can still recommend Doan's Kidney Pills in the highest terms, as my cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

LABOR NEWS OF ALL COUNTRIES

Jews Are Aiding the Striking Garment Workers in Cleveland, Ohio—Postal Employees Are to Have an All-Embracing Organization—Minimum Wage Law in Wisconsin to Be Based on Australian Laws—But Few Families of Union Men Require Charity—American Workmen No Better Off Than English Workmen.

Mexico mines employ 300,000 men. There are practically no textile unions in the South.

Beginning May 1, 1912, Cleveland lathers will receive \$5 per day.

About 90 per cent of the retail shoe clerks of San Francisco are organized.

Indianapolis, Ind., machinists do not want a machinists' home. A pension would be preferable, they contend.

The United Brotherhood of Operative Potters received an increase of one-half per cent beginning October 1. It is estimated that there are 2,000 women in the public service in Kansas, electric and otherwise.

The International Glove Workers' Union has extended its jurisdiction to include the canvas glove workers.

In the South Wales coal mines most of the workers are paid by the piece-work, and wages vary with coal prices.

Machinists employed in the Navy Yard at Washington have taken a decided stand against the introduction of the Taylor system.

Atlanta, Ga., is the birthplace of the International Machinists' Union and of the International Boiler-makers' Union, as well as of the shop blacksmiths' Union.

Laws in almost every large city in the country are giving financial aid to Cleveland's 6,000 striking garment workers.

The National Association of Postal Employees will include letter carriers, rural free delivery carriers, railway mail and postoffice clerks.

In England the Boot and Shoe Operatives' Union has decided to follow the example of the hatters and Jewish bakers in adopting a label for trade union made goods.

The total membership in trade unions in the United States at the present time is the highest recorded, showing an increase of more than 3 per cent during the past year.

A commission in Wisconsin has drafted and submitted to the legislature a minimum wage law based upon the laws now in force in portions of Australia.

Few unions have spent more money in the support of strikers than has the United Mine Workers of America. In ten years this organization spent about \$5,000,000 in fighting the mine owners.

The members of the New York Architectural Ironworkers' Union demand a fifty-hour working week, a minimum wage scale of 26 cents an hour and recognition of the union.

At Greenfield, Mass., nearly 400 people, largely railroad men, moved by the high prices of groceries and provisions, have organized a co-operative store association with a capital of \$25,000.

"The Survey" pays labor organizations the following compliment: "Only a small percentage of families whose heads hold membership in labor organizations come within the ken of charitable agencies."

By an amendment to the New York State labor law there are to be appointed by the Governor eight supervising inspectors of factories in this State, four of whom are to be allotted to Greater New York.

The convention of the American Order of Foresters held in Holyoke, Mass., passed a resolution committing the order to the use of paper manufactured only by companies entitled to the union label.

Newspaper writers on the Manhattan English, German and Jewish papers (some of them at least) are forming a union that they expect to be placed under the jurisdiction of the International Typographical Union.

The Munich, Germany, trade unions have formed a company, which has acquired a plot of land in the center of the town of about 30,000 square feet with a frontage of 150 feet, to build a trade union house, with halls, offices, etc.

The National Boot and Shoe Cutters' Assembly K. of L., was organized in Lynn, Mass., October 22, 1907. It has since the "Journal of the Knights of Labor" local assemblies in every shoe center in the United States.

According to statistics there has been a gain of 250,000 in the membership of the unions affiliated with the American Federation of Labor during the past year. Los Angeles has the honor of gaining the greatest percentage.

The United Hatters of North America report that most of the manufacturers who, in 1909, banded themselves together and decided to dispense with the union label on their products, are now using the label.

At the next annual convention of the United Mine Workers of America, to be held next January, and effort will be made to have Indianapolis, Ind., selected as the permanent headquarters of the organization.

Because the Union refused to supply union workmen and because he lost a contract as a consequence, Louis Orbits, a non-union contractor of Toledo, Ohio, has sued the Plumbers' Union of that city for \$300.

In the last thirty-three years in Pennsylvania, seventy-three per cent of the loss of life in coal mines have been due to carelessness on the part of the operators.

Forty-four States have adopted an age limit for the employment of children. The limit in some States is still pitifully low, but the organizations of labor that have wrested an age limit from unwilling Legislatures will soon force the limit higher.

The formation of what is now the American Federation of Labor originated in a meeting held in Terre Haute, Ind., on August 2 and 3, 1881. This meeting resulted in the issuance of a call for a convention to be held in Pittsburgh opening on November 15, 1881.

The scheme to amalgamate the two International Unions of Steam Shovelmen, which originated in San Francisco, has received the indorsement of Samuel Gompers and will be considered at the coming convention of the American Federation of Labor, at Atlanta, Ga.

Labor unionists in Colorado have bought a coal mine near Erie, which promises to furnish them fuel on twenty-four year contracts at a price lower than current rates. If it is a union project throughout, the mine is owned and worked by union men and the coal will be delivered to unionists by union teamsters.

A strike of street railway men in Trieste, Austria, has ended with the men obtaining a small increase of pay, the minimum rate being now fixed at \$2 1/2 cents a day, and a number of small concessions as regards annual leave, free uniforms, etc., having been made.

The Federation of Swiss Unions has to record a small loss in membership, the total being 63,833 (5,043 women) for 1909. There are twenty unions affiliated, eight of which show a loss whereas the other twelve have increased their membership.

According to a recent report issued by James Lynch, President of the International Typographical Union

during the last fiscal year the average age at death of members of the union was more than forty-nine years, an increase of more than eight years over 1900, when the average was 41.25.

Negotiations are still proceeding regarding the combine it is hoped to effect between the British Steel Smelters, the Iron and Steel Workers of Great Britain, and the Amalgamated Enginemen and Crane-men. They have 18,000, 7,000, and 6,000 members respectively. A members' ballot is shortly to be taken.

The French labor department reports 155 strikes and three lockouts in June in 140 of the new disputes. 18, 125 workers took part as compared with 21,193 who took part in 149 disputes in the previous month. Of 181 new and old disputes reported to have terminated thirty-two ended wholly in favor of the workers and sixty-nine wholly in favor of the employers while eighty were compromised.

The Brotherhood of Railway Clerks appointed a committee to select a suitable site near Cleveland, O., for a large brotherhood hall, where the unemployed and the aged members of the brotherhood may have a home and at the same time earn their living by farm work. The farm is expected to reduce the cost of living for members of the brotherhood from \$15 to \$20 a month by furnishing them produce at lower prices.

George Gearing Hiatt, who has been in the United States eighteen months studying industrial conditions in behalf of the Tariff Reform party in England, declares that while the wages of the American workmen are higher than those of his British brother he is no better off than the latter. "At the end of the week," he says, "the American has not a cent more in his pocket than the British workman."

The principal features of the proposed law relating to workers at Uruguay are as follows: An eight hour day for all workmen, including industrial and commercial employees; one day's rest after every six working days; State pensions for working women just before and after confinement; during which period they will not be allowed to work. Special inspectors will be appointed, who will have the confidence of the working classes, to see that the provisions of the law are observed in factories, work shops and offices.

Thirty thousand miners are expected to attend the great national mine safety demonstration to be held in Pittsburgh October 26-27, under the auspices of the Federal Bureau of Mines American Red Cross, the Pittsburgh Coal Operators Association and the United Mine Workers of America. The date originally set was September 16, but has been changed to above dates in order that the President may be in attendance.

A decree of August 31, 1910, permits deviations from the provisions of the French law relating to the weekly day of rest for establishments where furnaces are kept burning day and night. Where work is carried on by particular classes of work people specified in the decree must have at least twenty-four consecutive hours' rest each fortnight, or eighteen each week at the time of changing shifts. In addition, twenty-six days of rest must be given during the year.

The Clearmakers' International Union now has a membership of approximately 50,000, enrolled in some 400 locals throughout the United States, Canada and Porto Rico, with headquarters at Chicago. The union has established the eight-hour day with a living wage, and has a splendid system of benefits consisting of a death benefit ranging from \$50 to \$500, a sick benefit of \$5 per week, and to traveling members the privilege of drawing \$20 is allowed.
